CITIZEN SERVICE NETWORK

Citizen Service Network (CSN) is the reference organization for Civil/Citizen Service in Belgium. It aims at enabling all young people from 18 to 25 years old to make a Citizen Service in order to promote their personal development as well as their integration in society as responsible, active, critical and supportive citizens.

They can choose 6-month volunteer missions in organizations with solidarity projects. Their time is divided so: 80% mission in their host organization and 20% trainings with the CSN, peer-to-peer exchanges, and times of maturation and orientation.

Besides the pedagogical mission, the CSN works for the political recognition of the project, tries to communicate on the societal impacts of the project and to increase its network of partner associations to support the project,...

VOLUNTEERING DESCRIPTION

You will support the pedagogical team of the Citizen Service Network, which accompanies youngsters between 18 and 25 years old who commit themselves for six months to a voluntary mission in Belgium in our Citizen Service programme. The tasks that will be assigned to you are adaptable and evolve according to your preferences. For instance, you can manage social networks, edit videos, create visual content and animate the community on a daily basis.

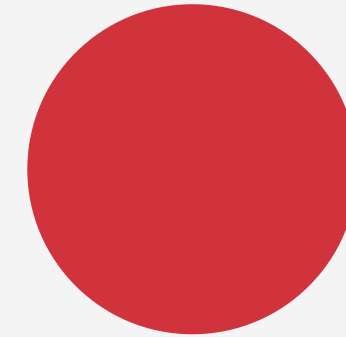

You will also be involved in the follow-up of young people, in cooperation with the host organizations that welcome young people in the Citizen Service; in organising and animating information sessions, integration weeks, training, exchange times, "work camps", complementary missions and the annual closing ceremony. Administrative tasks, such as encoding data, are foreseen not exceeding 20% of your mission.

You will take part in weekly meetings of the pedagogical team, as well as in meetings and strategy days with the entire Citizen Service Network's team. During your project, you will be expected to be actively and creatively involved. You can, for example, suggest new activities to the team, or carry out a personal project if you wish.

Training during the project

You will first receive a pre-departure training before leaving your home country. Once in Belgium, you'll get an arrival and later a mid-term training by the Belgian National Agency (BIJ).

Aside from that, you will have the opportunity to take part in the trainings organized for the young people in Citizen Service (integration week, democracy, environment, interculturality, communication,...), and you will participate in the institutional presentation of the Citizen Service Network.

You will be accompanied by your tutor who will train you along your volunteering period. You are also allowed to take language courses as stated by the program (OLS online training)
